

RUNNERS COUNTRY CLUB

We have discovered runners vote with their feet! For the past 38 years we have brought athletes around the world. With constructive and helpful feedback, we have been offering top-notch tour packages to all seven continents. It goes without saying that on our list of more than 40 programs, there is something for everyone. We wanted to take it one step further. Therefore, in late 2016, The Runner's Country Club was launched. This unique program is designed for runners who want to take their experiences one step further. In partnership with our clients, annually we survey our frequent travelers to identify new destinations and activities they wish to explore. Our goal is to present two or more new and unique destination experiences each year to discover together while reuniting with old friends and making new ones.

Based on survey results we've been busy behind the scenes running various recommended races, visiting the surrounding areas to ensure we can offer the best tour options, and working through somewhat complicated logistics. After going through this process, we are very excited to offer the following new destinations for 2018!

NEW RACES IN 2018
